FOOD SAFETY DECLARATION

MEFE – Mitchell Engineering Food Equipment Pty Ltd have been supplying and servicing engineered products for the meat processing, farming, food service and manufacturing industries for over a decade. All products supplied to our customers meet all recognised food service and food contact safety standards as listed below.

As some of our products are intended to be used as a food contact surface they are required to be manufactured in compliance with the following standards:

- Australian Standard for Plastic materials for food contact use (AS 2070-1999)
- The Food Standards Code for packaging that food is processed or stored in. To be considered food grade the product must adhere to:
 - adequate for the production of safe and suitable food
 - fit for their intended use
 - able to be effectively cleaned
 - made from a material that will not migrate into, contaminate or taint the food
- FSANZ: Food Standards Code Australia and New Zealand
 - Standard 1.2.3: Articles and Materials in Contact with Food
 - Standard 4.2.1: Primary production and processing standard for seafood
 - Standard 4.2.2: Primary production and processing standard for poultry meat
 - Standard 4.2.3: Primary production and processing standard for meat
 - Standard 4.2.4: Primary production and processing standard for dairy products
- Chemical Resistance – our products have been produced from material/s that are designed to resist all approved detergents and sanitizers, according to dosing recommendations in normal working conditions.

MEFE - Mitchell Engineering Food Equipment Pty Ltd hereby declare that the products we sell to you are suitable for contact with food and do not contain any chemicals or other substances that may be harmful for contact with food.

Warren Leamy
Director
