

**MATERIAL SAFETY DATA SHEET INFORMATION**

For further information: Please refer to the Material Safety Data Sheet following

Issue: November 19 rev2

**PRODUCT:** Food Grade Ink  
Halal Meat Marking Ink

**Other Names:** Meat Marking Ink, Food Ink

**Uses:** Meat Printing/ Stamp Ink, constituents USA  
FDA approved

<b>UN No.:</b>	N/A
<b>Dangerous Goods Class:</b>	N/A
<b>Subsidiary Risk:</b>	None
<b>Packing Group:</b>	N/A
<b>Hazchem Code:</b>	N/A
<b>Poisons Schedule:</b>	None

<b>Hazardous Nature:</b>	Safe work Australia (Australia,1/2014)
<b>Exposure Standards:</b>	TWA: None specified: consider 5 g/m3; STEL: None specified: consider 5 g/m3; Peak Limitation (if any): None; Skin Sensitiser (if any): None. Refer to Section 8 for further information and definitions.

**Physical Characteristics (Typical)****Section 9 of the MSDS**

Appearance	Coloured, mobile liquid
Melting Point (°C):	Not Available
Relative Density (g/100g @ 20°C):	Not Available
pH:	Not Available
Chemical Stability:	Stable under recommended storage conditions.
Reactivity:	No Data Available

**Product Ingredients****Section 3 of the MSDS**

<u>Ingredient</u>	<u>CAS Number</u>	<u>Proportion</u>
Water		<80
Sugar		<40
Colourants	various	<3

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

**Hazard Statements****Section 2 of the MSDS**

H302 May be harmful if swallowed
H315 May causes skin irritation
H336 May cause drowsiness or dizziness.

**DEFINITIONS**

Dangerous Goods	Products that are regulated for transport under the UN International guidelines are classified as Dangerous Goods. Products can be classified by their physical characteristics and may have only one Dangerous Goods designation, although may have a subsidiary risk. These products may be Dangerous Goods for transport by Air and Sea, but may not be classed as Dangerous Goods by Road and Rail in Australia. Refer to the Australian Code for Transport of Dangerous Goods by Road and Rail (ADG) for more information.
Hazardous Substances	Hazardous Substances are those products that are intrinsically hazardous by virtue of their chemical nature, rather than as a condition of their misuse. These hazards include mutagens, teratogens, carcinogens, and products that are harmful or irritant in nature. These products may or may not carry a Dangerous Goods classification.
Poisons	Poisons are products that are regulated by the dose or exposure, often having physical and chemical effects at certain concentrations particular to the nature of the product. The associated warnings, cautions and First Aid instruction are prescriptive under the regulation in Australia.

**SUMMARY INFORMATION ONLY**

## 1. IDENTIFICATION

**Product Name:** Halal Meat Marking Ink - Food Grade Ink  
**Other Names:** Meat Marking Ink, Food Ink  
**Chemical Family:** Food grade ink  
**Recommended Use:** Meat Printing / Stamping Ink  
**Supplier:** Mitchell Engineering Food Equipment Pty Ltd  
**ABN:** 86143027052  
**Address:** 23 Storie Street, Clontarf QLD 4019  
**Telephone:** +61 7 3283 4536  
**Fax:** +61 7 3885 8940  
**Emergency Phone:** 1800 669 006  
**All other inquiries:** 0422 811 260

## 2. HAZARDS IDENTIFICATION

### Hazard Classification

Safe work Australia (Australia, 1/2014)

### Hazard Category

N/A Not Dangerous Goods Classification

### Hazard Statements

H302 May be harmful if swallowed

H315 May causes skin irritation

H336 May cause drowsiness or dizziness.

### Precautionary Statements

P102 Keep out of reach of children

P103 Read label before use

P280 Wear protective gloves/protective clothing/eye protection/face protection

### Not Dangerous Goods Classification

Poisons Schedule: Non

## 3. COMPOSITION: Information on Ingredients

Chemical Ingredient	CAS Number	Proportion (% v/v)
Water		<80
Sugar		<40
Colourants	Various	<3

## **4. FIRST AID MEASURES**

For advice, contact Poisons Information Centre (Phone Australia: 13 1126) or a doctor.

### **Ingestion**

If swallowed, do NOT induce vomiting.

### **Eye Contact**

If in eyes wash out immediately with water.

### **Skin Contact**

If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

### **Inhalation**

If inhaled, remove from contaminated area. Apply artificial respiration if not breathing.

### **First Aid Facilities**

Eyebaths, safety showers.

### **Medical Attention**

Treat symptomatically.

## **5. FIRE FIGHTING MEASURES**

Shut off product that may 'fuel' a fire if safe to do so. Allow trained personnel to attend a fire in progress providing fire fighters with this Material Safety Data Sheet. Prevent extinguishing media from escaping to drains and waterways.

### **Suitable Extinguishing Media**

Product is not flammable. Use appropriate media for adjacent fire. Cool containers with water.

### **Hazards from products**

N/A

### **Precautions for fire fighters and special protective equipment**

Fully self-contained breathing apparatus

## **6. ACCIDENTAL RELEASE MEASURES**

### **Emergency Procedures**

Prevent product from escaping to drains and waterways. Contain leaking packaging in a containment drum. Prevent vapours or dusts from building up in confined areas. Ensure that drain valves are closed at all times. Clean up and report spills immediately.

### **Methods and materials for containment**

#### ***Major Land Spill***

- Warn occupants of downhill areas of spillage.
- Prevent product from entering sewers, watercourses, or low-lying areas.
- Keep the public away from the area.
- Shut off the source of the spill if possible and safe to do so.
- Advise authorities if substance has entered a watercourse or sewer or has contaminated soil or vegetation.
- Take measures to minimise the effect on the ground water.
- Contain the spilled product using the resources in the spill kit.
- Recover by pumping – use a hand pump – or with a suitable absorbent material.
- Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.
- See "First Aid Measures" and "Stability and Reactivity"

#### ***Major Water Spill***

- Warn occupants and shipping in downhill areas of spillage.

- Notify the port or relevant authority and keep the public away from the area.
- Shut off the source of the spill if possible and safe to do so.
- Confine the spill if possible.
- Remove the product from the surface by skimming or with suitable absorbent material.
- Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.
- See "First Aid Measures" and "Stability and Reactivity".

## **7. HANDLING AND STORAGE**

### **Precautions for Safe Handling**

This product is not combustible. Avoid discharge to waterways or grasslands. This product is soluble with water and will disperse rapidly.

### **Conditions for Safe Storage**

This product is not combustible. Protect packaging from damage. Check regularly for leaks. Dam spills and recover with absorbent material.

### **Incompatible Materials**

None known

## **8. EXPOSURE CONTROLS: PERSONAL PROTECTION**

### **National Exposure Standards**

The time weighted average concentration (TWA) for this product is: Recommended: , which means the highest allowable exposure concentration in an eight-hour day for a five-day working week. The short term exposure limit (STEL) is: Recommended: , which is the maximum allowable exposure concentration at any time.

### **Biological Limit Values (BLV)**

None specified

### **Engineering Controls: Ventilation**

The use of local exhaust ventilation is recommended to control process emissions near the source. Provide mechanical ventilation of confined spaces.

### **Personal Protective Equipment**

**Respiratory Protection:** Not needed under normal conditions of use.

**Eye Protection:** Always use safety glasses or a face shield when handling this product.

**Skin/Body Protection:** Always wear long sleeves, long trousers, or coveralls, and enclosed footwear or safety boots when handling this product. It is recommended that waterproof gloves be worn when handling this product.

## **9. PHYSICAL AND CHEMICAL PROPERTIES**

Property	Unit of measurement	Typical Value
Appearance	None	Coloured, mobile liquid
Boiling Range	°C	100
Density	g/100g; kgm <sup>-3</sup>	Not Available
Explosive Limits in Air	% vol/vol	No data available
Flash Point	°C	N/A
Solubility in Water	g/l	Soluble

The values listed are indicative of this product's physical and chemical properties. For a full product specification, please consult the Technical Data Sheet.

## **10. STABILITY AND REACTIVITY**

### **Chemical stability**

Stable.

### **Conditions to avoid**

Avoid direct sunlight and excessive heat.

### **Hazardous reactions**

Hazardous reactions will not occur.

### **Hazardous polymerisation**

Will not occur

## **11. TOXICOLOGICAL INFORMATION**

### **Acute Effects**

#### **Ingestion**

This product may cause discomfort on swallowing and may result in gastric disturbances. Large doses may result in euphoria and central nervous system effects such as headache, nausea, and dizziness.

#### **Eye Contact**

This product may be irritating to eyes on contact, but will not result in permanent corneal damage.

#### **Skin Contact**

This product may result in pain and irritation of the skin.

#### **Inhalation**

This product is unlikely to produce excessive vapours at ambient temperature, however, at elevated temperatures, there may result some vapour causing discomfort. Mists of this product, while unlikely in normal conditions of use, can be harmful if inhaled.

### **Chronic Effects**

Non expected.

### **Other Health Effects Information**

Persons with pre-existing skin, liver or kidney conditions may be sensitive to this product. Appropriate applications of PPE will avoid any undue product contact.

## **12. ECOLOGICAL INFORMATION**

### **Ecotoxicity**

Not considered an environment hazard.

## **13. DISPOSAL CONSIDERATIONS**

### **Disposal Methods**

This product can be recycled. As a USFDA approved product, the packaging can be disposed as general waste.

### **Special Precautions**

Do not put into sewer lines. Dispose of according to local, state, and federal regulations.

## 14. TRANSPORT INFORMATION

Road and Rail Transport		Marine Transport		Air Transport

## 15. REGULATORY INFORMATION

**Country/Region:** Australia

**Inventory:** AICS

**Status:** Listed

**Poisons Schedule:** None

**International List – National Inventory:**

**Canada:** All components are listed or exempted

**China:** All components are listed or exempted

**Europe:** All components are listed or exempted

**Japan: Japan Inventory (ENCS)** All components are listed or exempted

**Japan Inventory (ISHL)** Not determined

**Malaysia:** All components are listed or exempted

**New Zealand:** All components are listed or exempted

**Philippines:** All components are listed or exempted

**Republic of Korea:** All components are listed or exempted

**Taiwan:** All components are listed or exempted

**Turkey:** All components are listed or exempted

**United States:** All components are listed or exempted

## 16. OTHER INFORMATION

**Reasons for Issue:** New product supply to Australia; amalgamated supplier changes in all sections.

**Abbreviations:**

AICS: Australian Inventory of Chemical Substances

CAS Number: Chemical Abstracts Number

IARC: International Agency for Research on Cancer

PPE: Personal Protective Equipment

N/R: Non-regulated

N/A: Not applicable
